## PREMIERPACK™

- Easy-to-store, space-saving bag stands upright when unopened.
- Terminal Sterilization of the filled bottle provides "Sterilization Assurance."
- The Blow, Fill and Seal manufacturing process ensures content integrity.
- These products are manufactured in a FDA-registered and cGMP-compliant facility.
- Oversized IV hanger tabs enhance utility under extremely variable conditions of usage.
- Easy-to-read volume scales are molded into the sidewall of the bag.
- Soft bottles are sturdier than conventional IV fluid bags because they have thicker sidewalls.
- Spunwelded caps with oversized elastomeric septums allow for easier spike insertion and retention.
